IP Ranges Composing

- All IP of locality (region, city)
- All IP of countries
- All IP of ISPs
- All IP of continents

Information Gathering

- Find out the location and Internet service provider by IP
- Find out the location and Internet service provider by IPv6
- Find out my IP
- IP or Websites Information Gathering
- Identify CMS of Websites
- WebApp Information Gatherer
- Generate and test domain typos and variations
- Web-sites on a single IP
- IP address of a web-site
- IP address history of web sites
- List ALL DNS records
- HTTP response headers
- Trace URL's jumps across the rel links to obtain the last URL
- Checking the existence of a given mail
- Check the existence of a profile
- Search for profiles by full names
- Checking the existence of domains

Information exfiltration from cache and web archives

- Display page from Google cache
- Simultaneous search in several web archives

Bypassing the prohibition of displaying source HTML code, bypassing social content lockers

- Service bypassing blocking view source page
- Bypassing social content lockers

Advanced search engines usage

- Advanced Google search

AdSense services

- Check whether a site is banned in AdSense

Anti CloudFlare technics

- Whether a site behind CloudFlare
- Utilize misconfigured DNS and old database records to find hidden IP's behind the CloudFlare network

Images and Metadata

- Geotagging
- List all metadata of a file
- Web-site screenshots

Information about phone numbers

- International Calling Codes and Area Codes

Web Application Vulnerability Scanners

- Black box WordPress vulnerability scanner online
- Detecting SQL injection flaws online
- Drupal and SilverStripe Vulnerability Scanner

Web Server Vulnerability Scanners

- Web server scanner (Nikto)
- Open ports and running services scanner (nmap) online
- GUI Nmap online scanner with options
- Testing TLS/SSL encryption
- Security scanner for HTTP response headers

Subdomains and hidden files

- Search all subdomains of a website

Getting Information on MAC Addresses

- Determine the device manufacturer (vendor) by MAC address

Web server analysis

- Apache log analysis

Hashes, checksums

- Hash type identification

E-mail Analysis

- Extracting all information from an e-mail letter

Analysis of executable files

- Extract all strings from executable file
- Show information about the executable file

Special pages

- Usage server resources
- Raw IP search
- Donation
